

It's never been easier to take a
Quick Peek
at your child's early development

Get a **FREE** quick
Early Developmental Screening

Join the experts from Children's Specialized Hospital for a developmental screening for children ages 1 to 5 years old.

You will receive practical tools and resources about early childhood development.

Call us to find out how to schedule a private appointment through video or phone call from the comfort of your own home.

For more information or to register: **Call 908-301-5498**
